BAB V

PENUTUP

Pada bab ini berisi penutup yang terdiri atas kesimpulan dan saran. Kesimpulan ditarik berdasarkan hasil analisis yang telah dilakukan.

5.1 Kesimpulan

Berdasarkan hasil analisis data panel dengan pendekatan Random Effect Model (REM) pada 37 provinsi di Indonesia tahun 2020-2023, dapat ditarik beberapa kesimpulan sebagai berikut :

1. Kemiskinan tidak berpengaruh positif terhadap kriminalitas di Indonesia tahun 2020 – 2023.
2. Ketimpangan Ekonomi tidak berpengaruh positif terhadap kriminalitas di Indonesia tahun 2020 – 2023
3. Migrasi Masuk tidak berpengaruh positif terhadap kriminalitas di Indonesia tahun 2020 - 2023

5.2 Saran

Berdasarkan hasil penelitian yang telah disimpulkan, berikut saran yang dapat dijadikan pertimbangan :

Bagi peneliti selanjutnya, disarankan untuk memasukkan variabel di luar faktor ekonomi, seperti tingkat konsumsi minuman keras (alkohol). Variabel perilaku ini penting untuk melihat apakah kriminalitas lebih dipicu oleh faktor hilangnya

kontrol diri secara instan. Selain itu, penambahan variabel ini diharapkan dapat menjelaskan mengapa variabel utama dalam penelitian ini justru menunjukkan hubungan yang negatif.
